HOW CANNABIS

WORKS

Nature gave us a remarkably versatile and beneficial flower in cannabis. The medicinal benefits are far-reaching and every day we're continuing to learn more. The cannabis plant contains compounds called cannabinoids and terpenes, which interact with receptors in the brain and body to create various effects.

Cannabinoids are the secret ingredient that help many people feel better. Every cannabis product has a different cannabinoid and terpene composition.

CONSUME RESPONSIBLY

MEDICATING WITH CANNABIS FOR THE FIRST TIME?

START LOW, GO SLOW.

- First-time cannabis users should proceed with caution. It is recommended that you first try it in a safe, familiar environment.
- Start very slow. Wait at least two hours after medicating to determine the effects.
- Keeping a medication log is the best way to learn what optimal cannabis dosing regimen is best for you.
- It is recommended that you first try in a safe, familiar environment. Consuming in public places is prohibited.

HOW DO I STORE MY CANNABIS?

- We recommend storing your cannabis in a dark, dry and cool place to keep it fresh.
- For safety, always keep your cannabis in a locked and secure location in your home away from children and pets.
- Adult Use Possession Limit = 1.5 oz on person / 5 oz in locked container
Medical Possession Limit = 5 oz

ARE YOU PREGNANT?

Congratulations! Please note there may be additional health risks associated with cannabis consumption for women who are pregnant, breastfeeding or planning on becoming pregnant. Please consult your doctor. Women should not consume this medication during pregnancy or breastfeeding except on the advice of the practitioner who issued the certification and, in the case of breastfeeding, the infant's pediatrician.

Individual results may vary.
